

# Phase 4 Phonic Hunt

# Phase 4 Phonic Hunt

This pack has been designed to be used at home. There are eight different hunt including three that can be used outside.

Ask the child to read the word and find or even take a photo of the object. Once found they can tick it off.

Another fun way would be to use this during a video conversation and they can read the word and ask their relative or friend to find that object and tick it off once found.
