Game 1

# Aliens and Stars- Phonics Screening Reading Game

Our Aliens and Stars reading games have used words from each of the phonics screening checks since 2012. The picture board can be used with all of the word lists.

Ideally played with two players, each player takes turns to spin using the spinner at the top of the game with a pencil and a paperclip. If they land on an alien, they read the word that is next to the corresponding alien on their word list. If they land on a star, they read the word that is next to the corresponding star on their word list.

This resource will be updated every year once the phonics screening check has been released.

Use a pencil and a paperclip for the spinner

# Aliens and Stars- Phonics Screening Reading Game

Place the counters on the rocket.  
Each player takes turns to use the spinner and move that many spaces.  
Using the word list, read the word that matches the picture you land on.
